

# SLEEPER

GLOBAL HOTEL DESIGN

MARCH | APRIL 2016

## The Laslett

Vintage finds meet modern British style  
at Notting Hill's new neighbourhood hangout

## Adrian Zecha

The celebrated Asian hotelier looks back  
on the many chapters of a distinguished career

## The South Beach

Philippe Starck and Foster + Partners  
collaborate to design a new landmark for Singapore

**VONDOM**  
Ulm Daybed

Designed by Ramón Esteve, the Ulm Daybed presents refined and clean spherical geometry. Its circular form and grand scale have been designed with the bare essential qualities of utility and function in mind, discarding superfluous elements. Meanwhile, a pergola provides a soothing shade with a sheer fabric cover, protecting the interior while not in use. As with the rest of the Ulm collection, the Daybed offers integrated lighting, enveloping the space in colour and radiance.

## SUMMIT

Krios Marine

Exuding the Californian lifestyle, the Krios update is available in a highly polished, marine grade stainless steel configuration. Available on a custom-order basis, the Marine version is an extension of the 2015 Krios collection, conceived by Californian designer Conrad Sanchez. With oversized proportions: extra-deep seats, thick cushions and generous width, Krios is designed for casual comfort, with a modern aesthetic. The collection also features a three-piece coffee table, which can be transformed into three triangular side tables.

**FEELGOOD DESIGNS**  
C317

Feelgood Designs' C317 lounge chair is 50-years-old, yet retains its fresh appearance. Designed by Yuzuru Yamakawa, the comfortable shell contrasts with a slim, powder coated steel frame. The outdoor lounge chair is made using durable, synthetic materials offering easy maintenance and is available in various new colours including white, honey or black shell.

## JLF OUTDOOR

Jackson Bar Stool

The Jackson barstool from JLF Outdoor features an exposed, powder-coated aluminium frame that withstands the elements while remaining light. Its barrel back, drop-in seat is designed with a large-scale eyelet PE weave and loose seat cushion. The aluminium frame, shown in powder-coated white, is available in any JLF metal finish, or designer-specific, while the weave and cushions are also 100% customisable.
