

SUMMIT

Toulon Shade Series

There are pieces that complete a space. And then there are pieces that define it. Developed in collaboration with Santa Barbara Designs®, the Toulon Shade Series is a masterwork of form and material. The hexagonal canopy floats above with architectural grace, anchored by nickel-plated fittings that gleam like fine jewelry against the rich warmth of Summit's exclusive teak pole. Light plays across the metalwork throughout the day, creating a striking interplay of brilliance and natural beauty.

The artistry lives in the finishing touches. Specify the timeless Market Cut valance or choose Mirasol, Scalloped, or Keyhole styles, each detailed with hand-applied braid that elevates the entire silhouette. Summit's expansive Regatta® fabric palette, custom linings, and mobile bases mean Toulon can be precisely what your vision demands. This is a shade created for the world's most beautiful settings — clifftop estates, superyacht decks, resort sanctuaries — places where exceptional is the baseline.
